Everyday Math Games On-line

We now have our Everyday Math Games available on-line! Our district Technology Department has purchased a district license that enables Grades K-6 to access all the games through the Internet.

To access these games from home, please log on to our school web page at www.cssd.org/hmes. Once you are on the school site, you will find a direct link to the "EMGames". At the EMGames sign on page, you need to type in the name of your child's teacher, your child's name, and your child's password.

The Everyday Math Games require Shockwave and Flash on your computer. These are free downloads from www.macromedia.com/downloads. You can select Macromedia Flash Player or Macromedia Shockwave player. Many computers already have this software installed from other programs. You may want to try the games first and see if they work without downloading the software.

Your child's information is shown below. Please use this page as a reference to access the Everyday Math Games. If you have any questions, please contact either Mrs. Grande at sgrande@cssd.org, or Mrs. Valentine at jvalentine@cssd.org.

We are very excited about this new addition to our Math program.

STUDENT LOGIN

Enter your teacher's name, your first and last name, and select your password. Then press "Start".
